

Roundtable Presentation

Pratik Jain

The Path

The Path is a puzzle game about following the path and figuring your way out of the maze. This game has a twist. You are in fact rewarded for breaking free from the path. On a deeper level it speaks about how, in life, we tend to walk on paths set in motion by our parents, idols, influencers or peers and we keep following it. This game is about breaking away from that path to discover yourself and carve your own path.

Uses p5.play and p5.sound
